

Summary

I am an aspiring React Native developer seeking a full-time opportunity in mobile app development. I am proficient in integrating RESTful APIs, leveraging cross-platform applications, and utilizing mobile development tools. With experience in building apps using Swift and enhancing proficiency through internships, I am dedicated to contributing to innovative mobile app solutions.

Experience

Trainee – FBSPL Academy, Udaipur, Rajasthan
(12/2024 - 01/2025)

- Increased typing speed by 20%, leading to faster data entry and task completion.
- Mastered advanced MS Excel functions including pivot tables and macros.
- Facilitated group discussions, improving team communication and collaboration.
- Conducted 10+ mock interviews, boosting job preparedness and confidence.

iOS Development Intern – MATE Academy, Udaipur, Rajasthan
(06/2024 - 07/2024)

- Built core features of the Myntra app using Swift UI and integrated Firebase for real-time data.
- Designed and implemented REST APIs for profiles, cart, and product management.
- Collaborated in a 5-person team, improving user retention by 15%.

Projects:

Myntra Clone App (iOS)

A project aimed at cloning the Myntra app to replicate its functionality and user experience.
Designed authentication and profile pages using Swift UI, improving user onboarding time by 30%.
Integrated Firebase Authentication for secure login and real-time data updates, ensuring data accuracy of 99%.
Developed a responsive profile interface to view and update user details, enhancing usability scores by 20%.

E-commerce App (Android)

Built a cross-platform e-commerce app using React Native (v0.77.0) and Firebase Firestore.

- Implemented user authentication, product browsing, and cart features via RESTful APIs.
- Used React Navigation, Image Picker, and Vector Icons for smooth UI and UX.
- Ensured secure login with Firebase Auth and maintained code quality using ESLint and TypeScript.

Coffee Shop App (Android)

Developed a cross-platform app using React Native (v0.78.0) with Firebase for backend services.

- Integrated features like menu browsing, order tracking, and location-based store finder.
- Used Zustand for state management and Lottie for engaging UI animations.
- Enhanced UI/UX with React Navigation, Linear Gradient, and Splash Screen.

Academic

Bachelor of Computer Application –
Mohanlal Sukhadia University, Udaipur

Aug 2021- Sept 2025
Udaipur

Skills

Android-Studio, CSS, Firebase, GitHub, HTML, iOS Development, JavaScript, Node.js, React-Native, SQL, Swift, Xcode

Certification/ courses

- Build iOS and Android Apps: Master Hooks, Redux Toolkit, Navigation, Authentication, Payment & App Stores", Udemy (Jan 2025)
- "Build a Complete Mobile Messaging App using Flutter, Firebase & Provider", Udemy (Jan 2025)
- TCS iON Career Edge - IT for Non-IT Tata Consultancy Services (TCS), Completed January 2025 | Cert ID: 8739-27500179-1016
- Completed TCS iON Career Edge - Young Professional course, enhancing skills in communication, career guidance, resume writing, and IT fundamentals.
